

Relax.....

..... when we are at work

About Us

Ample Elevator has been established as an Elevator company in India. We are a full service elevator and lift company that specializes in the sales, installation and service of elevating devices. We have a keen understanding of the applicable codes, and have the ability to work with a design team or an individual to turn any concept into a reality. We offer a product line with the most innovative modular design and advance engineering in the industry. We are always evolving, helping achieve our goal of being a prestigious brand in quality.

Whether you have decided to build your dream home or enjoy the freedom or enjoy accessing all levels of your home, Ample Elevator have the solution that will fit your lifestyle and satisfy in all aspects of comfort, efficiency and safety. Completely adaptable to any style of home, your residential elevator will blend into your home décor with its universal design capabilities.

Our key focus is ensure all solutions are carried out with the highest levels of efficiency and to provide solutions that are tailored to suit each customer's individual needs. Whether a customer needs sophisticated elevator system or a simple lift for a two – story home, we guarantee to supply the safest, most cost efficient solutions possible. Our Products are designed with emphasis on the energy efficiency and the safety aspect of transporting people. We are constantly working towards the environmental impact of the future.

AMPLE ESCALATORS

We introduce a full set of the latest control technology, apply new modern materials and the latest processing craft & technique to produce Escalators. Escalators are used around the world to move pedestrian traffic in places where elevators would be impractical. Principal areas of usage include department stores, shopping malls, airports, hotels, arenas, stadiums, train stations (subways) and public buildings. Escalators have the capacity to move large numbers of people, and they can be placed in the same physical space as a staircase. They have no waiting interval (except during very heavy traffic). A non-functioning escalator can function as a normal staircase, whereas many other conveyances become useless when they break down

AMPLE CAPSULE ELEVATOR

Capsule Elevator are usually installed in Hotels, shopping malls and other commercial buildings. They are installed on the exterior part of a building; they completely give a different perspective to the look of the building. Capsule Elevator can carry 4-40 people at one single travel. These are Octagonal shaped lifts and add beauty to a building. It provides a enlarged view for the passengers and decorate the buildings as well.

AMPLE PASSENGER ELEVATOR

Passenger Elevators can operate utilizing several drive systems. Ample Elevator can offer Counter Weight type, traction and MRL (Machine-room-less) units. The amount of travel, overhead and pit depth will often determine which method is best for A particular application, and we can quote accordingly. With a wide variety of finishes, platform sizes and configurations a passenger elevator from Ample Elevator can meet any design criteria.

- DOOR OPERATION TYPE: MANUAL/ AUTOMATIC.
- CAR/CABIN DESIGINES: MILD STEEL /STAINLESS STEEL/ DESIGNER STAINLESS STEEL/GLASS
- DOORS FINISH: MILD STEEL /STAINLESS STEEL/ GLASS/ACCORDION DOORS
- CAR OPENING PANELS: PUSH BUTTONS/TOUCH SCREEN
- MACHINE ROOM: WITH MACHINE ROOM/WITHOUT MACHINE ROOM

AMPLE HOME ELEVATOR

Home elevators not only adds luxury but also increases the resale value of your home. They are now being accepted as an integral part of a modern home. It not only helps you to commute between floors but also helps you to take groceries, laundries and heavy object with ease.

AMPLE HOME ELEVATOR FEATURES:

- WORKING IN SINGLE PHASE
- SMALL PIT AREA REQUIRED.
- NO NEED OF MACHINE ROOM.
- WITH AUTOMATIC RESCUE DEVICE (ARD) WORKS WHEN POWER FAILURE.

AMPLE DUMBWAITER

Dumbwaiters are small freight elevators that are intended to move food, laundry and other essentials between floors without having to carry them manually. They often link kitchens with rooms on other floors. In Hotels Dumbwaiter is used to supply foods direct to customer's room.

HANDRAIL TYPES

AMPLE FREIGHT ELEVATOR

Freight Elevators that can be used in factories that requires goods transportation in a vertical movement. We manufacture various sizes and designs that can be used in your commercial building for safe and sound transportation goods.

We follow very strict quality measures to make sure that our Freight Elevators can carry and transport goods up to 5000 kilos. We provide Gearless type Freight Elevator in 2000Kg or Less after that we used Geared Technology.

AMPLE AUTOMOBILE ELEVATOR

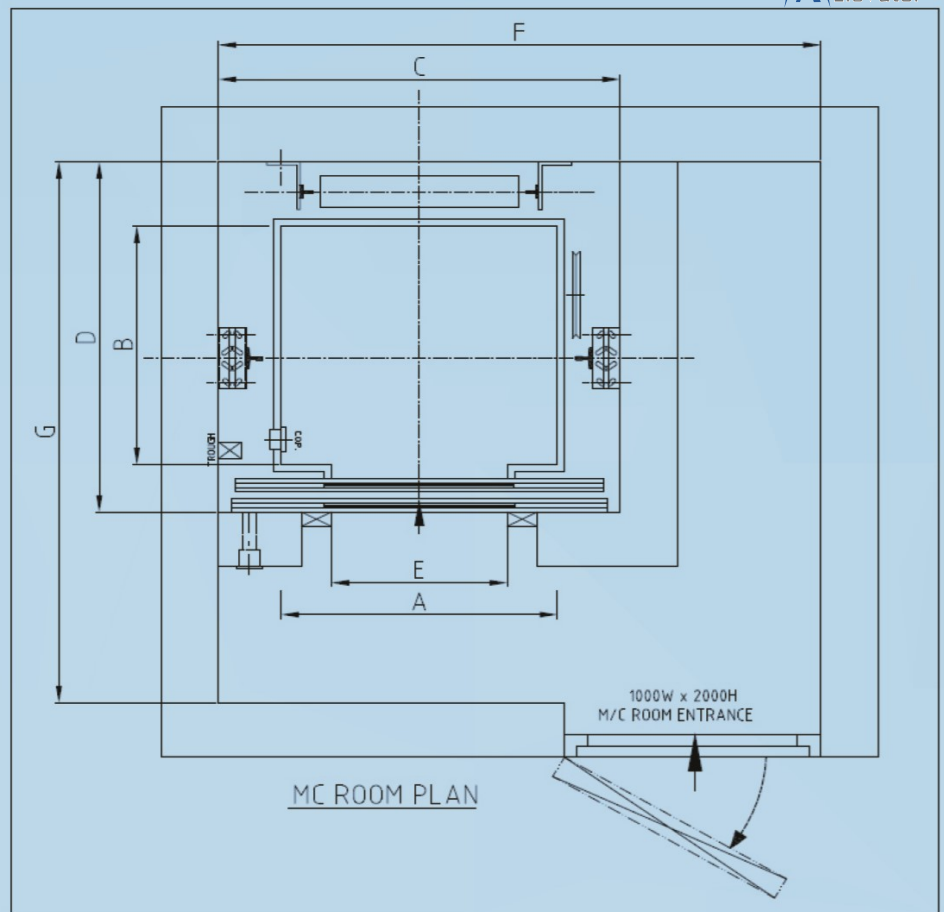

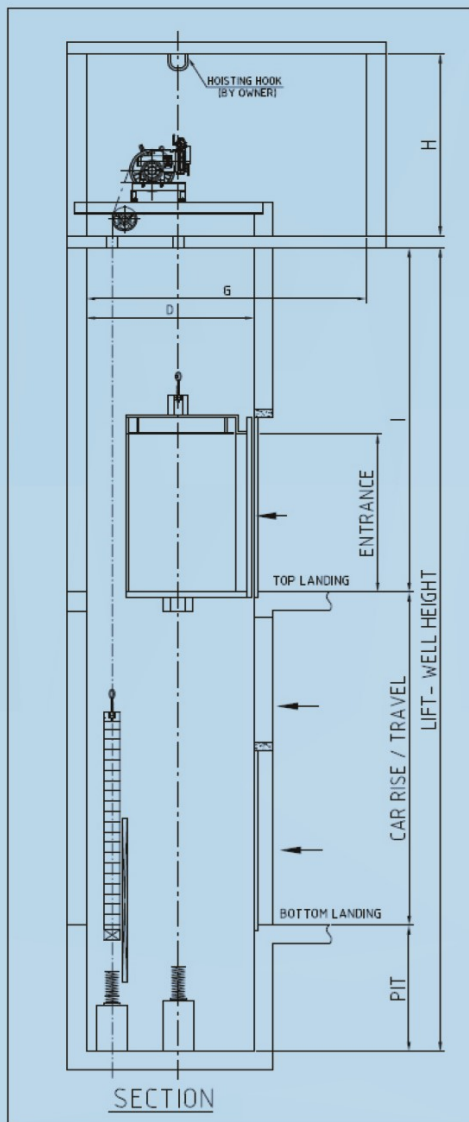

Automobile Elevators are used for multistoried movement of cars & two wheelers by automobile show rooms, multi-level parking facilities, rooftop parking, etc. Automobile Elevator operates in the same way as a normal passenger lifts, however instead of transporting only you, a car lift transports you and your car to your designated floor in a multi storey car park. The operation of accessing the lift can be carried out by a standard call station system or by utilizing the latest remote call button technology. Thus, you do

Not have move from your car until you reach your car.

AMPLE HOSPITAL/STRETCHER ELEVATOR

Our hospital elevator serves you the purpose to carry patients between floors in hospitals and reduces the patient waiting period to minimum extent. They are well lit and are very spacious to accommodate stretchers and patients. We manufacture them keeping in mind that it has to be a very smooth transition between floors, so we have a shock absorbing mechanism in place to avoid unnecessary jerks.
